Environmental levy on light bulbs

This levy, which was originally intended to be introduced on 1st October, was withdrawn at the last minute for revision.

Formal notice of its introduction with effect from 1st November at R3 per lamp has been published in the Government Gazette today.

When environmental levy products are removed in bond through South Africa to a BLNS country, proof that the goods were cleared through customs in that country must be submitted to SARS within 30 days of the date of the removal entry.

The levy does not apply to lamps for vehicles, projectors, torches or radiators (heaters).
