Television Sets

Additional sub-headings have been created in the Customs tariff to distinguish between television sets incorporating cathode-ray tubes and those using LCD or plasma screen technology. Duty rates are not affected by this change.

Industrial rebate item 316.17 has also been expanded to provide for relief on components used in the manufacture of LCD or plasma display screens. The use of the new provisions is subject to clearance against specific permits issued by ITAC.

Specific details are available from the tariff consultant at your nearest Safcor Panalpina office.
