TELECOMMUNICATIONS

Delivering a seamless supply chain to the Telecommunications Industry

A BIDVest Group company and a member of the Panalpina Global Network

Safcor Panalpina is an Authorised Financial Services Provider

Caro Communications

A highly competitive Telecommunications Industry calls for the highest quality logistics providers. Safcor Panalpina meets every requirement demanded by this high risk, high value and time sensitive industry. A dedicated team ensures the three industry segments experience a seamless global supply chain.

Network Equipment

This type of cargo requires specialised warehousing and distribution management.

Mobile Phones

High value air freight cargo demands a secure supply chain and is driven by seasonal and on-time demand.

Operators

Competitors fighting for subscriptions need to ensure a constant supply of spare parts and agile distribution options.

Features and benefits

Safcor Panalpina brings to the Telecommunications Industry a flexible supply chain offering that allows for customised solutions to this time sensitive and vulnerable cargo:

- Ability to handle short term delivery demands
- Own controlled freighter network out of Luxembourg
- Commercial airlines
- Multi-hub options

Our logistics facility at OR Tambo International Airport

Strategically located and designed to handle high tech products well into the future, this facility offers efficient handling of products, lead time reduction, timeous processing of invoices and customs bonded facilities which positively impact client cash flow.

Feature

Strategically located at OR Tambo Intl Airport

Customised facilities

Benefit

Reduces lead time and gives quick and easy access to the distribution network.

Designed for high-tech parts and products with space and product flow optimisation, increased capacity and operational efficiencies. Has state-of-the-art cross dock facility, bond store and SOS bond store.

Safcor Panalpina's state-of-the-art logistics facility utilises unique cargo stripping stations for easy handling of goods

World class risk management

Vital to handling high value risk cargo, Safcor Panalpina is proactive at best practice security and has invested substantially in stringent security measures to reduce risk. This includes not just the physical aspect of security but compliance and how best to manage documentation within international supply chains.

- Transported Asset Protection Association (TAPA) "A" Accreditation
- Founder member of the SA chapter of TAPA
- Specialised cargo handling (SCH) to meet Unit Load Devices (ULDs) and consols at airside
- Armed escorts for collections and deliveries
- Vehicles equipped with satellite tracking and compliant with TAPA Truck Security Requirements (TSRs)
- Cargo Centre police forum participation
- Surveillance cameras and biometric access control systems
